THE POWER OF EMPLOYEE GIVING IN SAN JOAQUIN COUNTY

UNITED WAY OF SAN JOAQUIN COUNTY
WORKPLACE GIVING CAMPAIGNS

HISTORY OF GIVING SINCE 1926

For close to 100 years in San Joaquin County, United Way has been at the center of change and has raised an estimated \$100 million dollars. These funds have been directed back to our community's nonprofit partners so they can provide expanded services, programs, or initiatives that change lives. Locally we aspire to direct our resources to address our most pressing community needs. We work with hundreds of nonprofits, employers, corporations, and volunteers throughout San Joaquin County to tackle the tough issues.

WORKPLACE GIVING CAMPAIGNS

The United Way Workplace Giving Campaigns unites employees and gives them an opportunity to donate, volunteer and speak out for causes that matter to them. It is the cornerstone of the United Way model, bringing together employers and employees for the common good. Each campaign has the collective ability to direct donations to local agencies that support our communities.
