

# WHY UNITED WAY?

## WE CONVENE FOR A BOLDER IMPACT

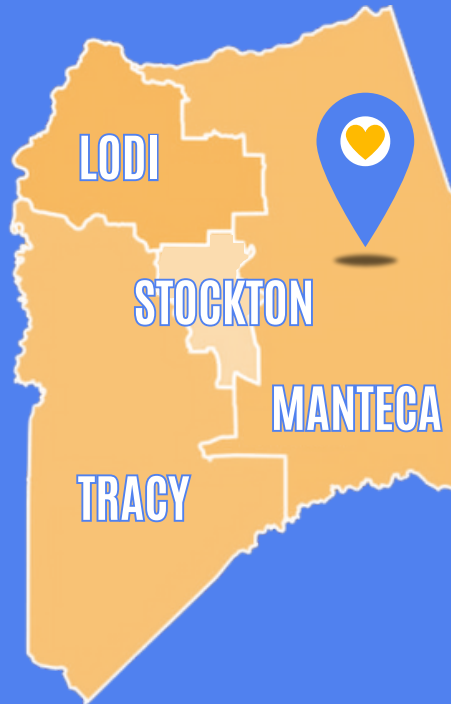

We know that there is strength in numbers, so much of our work is accomplished by being **BOLDER TOGETHER**.

We connect agencies and nonprofits, dreamers and change makers, those who want to give their time and those who need it, and this is how real change happens.

Our strength is convening people. Through strong community connections and partnerships we are able to accomplish our mission - improving the lives of people by mobilizing the caring power of communities.

We collect data, raise awareness, catalyze volunteers and facilitate conversations that fuel ideas and establish best practices to address the urgent and ongoing needs of our community.

## GIVE LOCAL, IMPACT LOCAL

Issues facing our most vulnerable neighbors are never confined to geographic or political borders, but we've found the most effective way to impact local communities is through guidance at the local level by people who know the challenges and opportunities.

United Way is proud to serve the county of San Joaquin. Be assured, your donation directly impacts the lives of people right here where you live and work.

## MAKING CONNECTIONS & BUILDING FUTURES

### ELEANOR BY WOMEN UNITED

EWU strives to connect and empower young and established women in our community by hosting specialty events that help us deliver on the promise of connection so that we can continue to do great things together.

### NEXT GEN TO SERVICE

This program's core objective is to cultivate the next generation of nonprofit leaders by offering juniors and seniors in high school an immersive experience in the nonprofit sector within San Joaquin County. This is achieved through a combination of student-centered learning opportunities and active board engagement in local nonprofit organizations.

### NONPROFIT CAPACITY BUILDING PROGRAM

NCBP is a collaborative initiative between the United Way of San Joaquin County and the City of Stockton. This nine-month program aims to enhance the organizational capacity of nonprofits and amplify their efforts to bring about positive change in our community. The completion of this program is comprised on a written sustainability plan for each participating organization.
